Hungry shark evolution sharks in real life

Comments Share The Gulper Fish is a creature in Hungry Shark Evolution. They are found only in the cave of the dart board, in the deepest parts in the far right side of the map. They are highly dangerous because they bite your shark and. They are edible for the tiger shark and above. Eat 10 Gulper fish is required to fulfill the Great White Mission Big Gulp. Gulper fish are only available when players use Hammerhead Shark and higher, however, only tiger shark and higher Gulper fish can eat without a gold rush. If reef sharks and mako sharks go to the place where the gulper fish are supposed to exist, the gulper fish will not be there and only anglerfish that can be found. Summary Gulper Fish, if encountered, can be a welcome or dreaded sighting, because they restore a lot of health, but can also cause moderate damage. They attack with fast lungs that are extremely difficult to escape. Gulper fish are rarely found on their own, and are usually spotted in groups of three and occasionally two. They can be found where the water pressure is too high for the first 3 standard sharks, and where the water is dark. This case is only the area near the dart board. Eating a Gulperfish gives you 1000 points. Trivia In real life they are called Gulperaae and are less dangerous even with much longer torsos. You can call Gulper fish in the game because Gulper eels are not really eels. In real life, Gulper eels range from 6 inches to 5 feet. Nobody really knows if Gulper Eels really live, most specimens, if not all, are dead. He attacks the Gulp! To give. It seems to be his own way, as the Gulperaal is similar, but also different. The player can only eat the opposing versions if he uses this shark or a stronger shark. However, in some instalments, you can eat sharks much bigger than you are. The only games you can do this are Hungry Shark: Night, Hungry Shark Evolution (Gold Rush) and Hungry Shark World (Mega Gold Rush). Hungry Shark Trilogy The Hungry Shark Trilogy contains only one shark, a great white shark, which also has a mega shape. Its appearance is similar to that in Hungry Shark Evolution. It is the only shark that is playable. Hungry Shark Night Hungry Shark: Night has three sharks: tiger shark, which is unlocked by default, but the Great White Shark and Hammerhead Shark must be bought with real money, or by watching some videos. However, there is a very high chance that you will have to buy them with real money, as for many players you can no longer watch ads. Hungry Evolution Hungry Shark Evolution has the second most sharks, along with eight special sharks (all regular sharks need the previous shark at level 10 with 100% xp. to be unlocked, or the player could use gems to buy the banned shark): name name Cost 1 reef shark The first shark of the game. Has a small diet, health, and boost attribute. However, it has the slowest health outflow of all, which means that it can stay alive longer than a megalodon. Starter 2 Mako Shark A mediocre shark. Has a larger diet. Pretty low health runoff and a little more health. Faster and stronger than the reef shark. 1,500 coins, 20 gems. 3 Hammerhead shark A pretty decent shark. Has a medium diet. Has some good health and health drain. Better boost. 6,000 coins, 60 gems. 4 Tiger shark A good shark for dangerous prey. Can eat puffer fish even if they are inflated. Can go in deep waters and has even better health than the Hammerhead. 15,000 coins, 200 gems. 5 Great White Shark The best shark from all 5 Basic. A very good diet, includes blue jellyfish and Enemy Great Whites. 35,000 coins, 750 gems. 6 Megalodon A giant monster shark capable of eating most prey, including all jellyfish and normal and large mines, but no ultramines. Large amount of health, but drain very quickly. Especially on land. Also has a big bite. 50,000 coins, 900 gems. 7 Big Daddy A very powerful shark in the game. can eat almost anything, even mini-sub and ultra-mines, huge amount of health, but it goes away quickly, especially on land. It can also use its tongue to draw loot 150,000 coins, 900 gems. 8 Mr. Snappy It is able to eat anything except poisonous cans, volcanic jets, enemy alans, enemy Moby Dicks and enemy Leos. It has the third largest health and it is very fast. Large amount of health with very, very fast health outflow. 250,000 coins, 900 gems. 9 Alan, Destroyer of the Worlds The fifth strongest shark in the game, with an enormous health bar. Can paralyze prey with tail. 350,000 coins, 900 gems. 10 Moby Dick The classic legend is one of the most powerful sharks/whales in the game, can also use its blowhole to stun prey. 400,000 coins, 900 gems. 11 Leo The fifth most powerful shark, he can destroy rocks and eat mini-sub, it can also suck prey if he increases with a turbulence 500,000 coins, 900 gems. 12 Nessie The monster escaped Loch Ness through a magical portal... Nessie is real and hungry! 500,000 coins, 900 gems. 13 Sharkjira Sharkjira-chan will spread terror over the surface! Stomps mercilessly at his victims and shoots 'em with his atomic breath! 500,000 coins, 900 gems. 14 Abyssshark Abyssshark will open his too shy, demonic mouth to absorb everything and emit spirit that controls waves against enemies! 500,000 coins, 900 gems. 15 Kraken The Octopus has been published. See his tentacle rage! It changes the colors when you recognize Sharks, turns into a huge drill and a saw of mass destruction and unloads its tentacles as whips. And according to pirate stories of yesteryear, it will smash all the boats that get in its way... 750,000 coins, 900 gems. 16 Luminate Last seen a few centuries ago, this animal was technologically modified by an ancient and lost civilization. See the mysteries of his horned head, and Ability that makes this shark so destructive! 750,000 coins, 900 gems. Professor Kempstein's Lab Sharks (to unlock it, the player must first unlock the Top Secret Lab by scoring 350,000 points): HSE Special Sharks Name Description Cost 1 Electro Shark Same Diet like the Great White Shark with the exception of Enemy Ice Sharks, but has a small boost bar. When it boosts it electrocutes loot nearby, paralyze it and give double points. And is also one of the cheapest special sharks! 25,000 coins, 250 gems. 2 Ice shark same diet as Great White Shark, but slows down when increasing. When it increases, it freezes nearby prey and slows down the shark. Frozen loot give 2x points. 75,000 coins, 450 gems. 3 Robo Shark Powerful Shark. Same diet as Megalodon with the exception of ultra mines and boats. Can not increase in water, but can fly out of the water at high speeds. It can consume small mines and use them as ammunition, then fire and kill prey, even those who might not eat it normally, like the enemy Big Daddy. It is the first shark not an animal (it is a robot). 180,000 coins, 900 gems. 4 Pyro Shark Very Powerful Shark. Has a mixed diet. Has 3 abilities - Dragon Breathing that you do by cheering them up (Fire causes erratic movement and blows them up that feeds you. Eat for extra points) Flight that works like Robo Shark, and Meteor Storm. (Happens during gold rush, blows food in the air and feeds you, can kill bigger prey. 180,000 coins, 900 gems. 5 Natasha the narwhal She is the weakest of the Top Secret Lab Sharks, but surprisingly very expensive. She can fire javelin throwers with her extremely small thrust. 180,000 coins, 900 gems. 6 Ghost Shark Probably the most powerful and definitely most expensive of the Top Secret Lab sharks. It is invincible (except in Ghoul Rush) and can teleport through walls when it is climbed. 200,000 coins, 900 gems. 7 Sharkelton A shark with many special powers. In its normal phase, it can hold out its tongue or become invisible to prevent it from getting damaged. It can also eat the enemy counterparts of electric, ice and pyrosharks at the same time. And is a kind of imitation cat. 180,000 coins, 900 gems. 8 Wereshark half shark, half wolf. Every night this shark transforms into its night form and becomes even more powerful. A shark with many special powers. Together with the ghost shark, the Wereshark is one of the top predators in Professor Kempstein's laboratory. 180,000 coins, 900 gems. All normal sharks and few special sharks have baby versions. Hungry Shark World Hungry Shark World offers the most sharks than any other game in the series by far.
